

SHIVANI HARODE

Frisco, TX | 608-982-3299 | shivaniharode@gmail.com | <https://shivani2627.github.io/shivaniharode/>

PROFESSIONAL SUMMARY

Senior UI/UX Designer with over 7 years of experience delivering user-centered products for high-traffic digital platforms. Specialized in FIGMA MAKE workflows and implementing artificial intelligence to enhance design efficiency and user insights. Expert in creating fluid, responsive layouts for massive consumer-based web design across e-commerce, banking, and government sectors.

PROFESSIONAL EXPERIENCE

UX Designer

Jan 2026 – Present

State of Missouri – School Finance Website Redesign

Remote

Project: A comprehensive modernization of the Department of Elementary and Secondary Education (DESE) portal to provide transparent financial data to the public and educational districts.

- Leading the overhaul of the School Finance Dashboard using FIGMA MAKE, architecting personalized data visualizations for state officials, school district administrators, and the general public.
- Utilizing Claude to refine information architecture and assist in front-end code adjustments to ensure high-performance responsive behavior across all browser viewports.
- Applying advanced UX methodologies including heuristic evaluation and card sorting within FIGMA MAKE to simplify the navigation of multi-layered financial data sets.
- Maintaining a centralized design system within FIGMA MAKE that ensures accessibility compliance and visual consistency for massive consumer-facing web modules.

Tools & Skills: FIGMA MAKE, Claude, AI Data Analysis, Information Architecture, Responsive Web Design

Sr. Web Designer

Jan 2024 – Jun 2025

State of Wisconsin – PROTECT Case Management System

Wisconsin

Project: A specialized legal enterprise platform designed to manage statewide prosecution data and case workflows for District Attorneys across all 72 counties.

- Functioned as the standalone designer for a complex District Attorney application used statewide, collaborating directly with Business Analysts to translate intricate legal requirements into functional designs.
- Architected the complete design process from scratch, beginning with user discovery and requirements gathering to establish a foundation for the statewide case management system.
- Developed high-fidelity, responsive screens in Figma that optimized legal documentation workflows for thousands of legal professionals.
- Built a comprehensive Figma design system from the ground up, ensuring visual consistency and rapid iteration for diverse module updates.

Tools & Skills: Figma, Design Systems, Stakeholder Management, User Discovery, WCAG 2.1 Accessibility

Sr. UX Designer

Oct 2022 – Apr 2023

Wipro Digital – HP MPC (Enterprise E-Commerce)

Remote

Project: A global enterprise e-commerce platform focused on high-volume direct-to-consumer sales and product configuration for HP's diverse hardware lineup.

- Spearheaded the UX strategy for a global e-commerce site focused on high-volume consumer traffic.
- Built comprehensive mobile application views and responsive web interfaces in Figma to support multi-device shopping.

- Focused on optimizing the purchasing path and product discovery through refined interaction design and massive consumer-based web design principles.
- Collaborated with engineering teams to ensure design fidelity during the transition from Figma to live production.

Tools & Skills: Figma, Mobile-First UI, Consumer E-commerce, Interaction Design, Component Libraries

Associate Web Designer

Nov 2021 – Jul 2022

Synechron Technologies – CitiBank

India

Project: A financial services platform aimed at simplifying retail banking interactions and personal wealth management through data-heavy dashboards.

- Crafted complex financial dashboards within Figma, prioritizing visual clarity for retail banking customers.
- Developed interactive web prototypes that demonstrated responsive behavior and user flow transitions.
- Used HTML and CSS to build and test live versions of page layouts, ensuring precise alignment with Figma designs.

Tools & Skills: Figma, Fintech UI, Prototyping, HTML5, CSS3, Responsive Web Grids

UX Designer

Nov 2018 – Jul 2021

Atos | Syntel – FedEx Café

India

Project: A logistics and shipping mobile application suite (FedEx Café) designed to streamline label creation and package tracking for end consumers.

- Designed the FedEx Label Creation Mobile App for iOS and Android within Figma, enabling consumers to generate shipping labels directly on handheld devices.
- Developed detailed wireframes and UI components in Figma to ensure a cohesive responsive experience between mobile and web logistics platforms.
- Partnered with engineering teams to implement designs using Angular and Bootstrap, ensuring high standards for production-ready interfaces.

Tools & Skills: Figma, iOS/Android Mobile UX, QR Integration, Angular, Bootstrap

TECHNICAL CORE & EDUCATION

Design & Strategy: FIGMA MAKE, Claude (AI), FigJam, Adobe XD, Sketch, Axure RP, Framer, Information Architecture, Heuristic Evaluation, Design Systems, WCAG 2.1.

Development & Frameworks: HTML5, CSS3, JavaScript Frameworks, Angular, Bootstrap, React-based component design, Developer Handoff.

Education: B.E. in IT | Yeshwantrao Chavhan College of Engineering | SAFe Agile Practitioner | Google UX Design (In Progress)
